John Wicker, Chief Deputy Director

PARQUE DE LOS SUEÑOS SOIL SAMPLING RESULTS AVAILABLE

The Department of Toxic Substances Control (DTSC), the state agency responsible for primary oversight of the soil sampling at Parque de los Sueños, releases testing results.

WHY WAS THE SOIL TESTED?

As part of the Exide Technologies investigation, soil sampling was conducted at Parque de los Sueños to determine whether any lead present would pose any health risks to park users. The soil sampling took place on Tuesday, March 31, 2015.

IS THE PARK STILL SAFE?

The results show that the park continues to be safe for the community.

WHERE CAN I SEE THE TEST RESULTS?

Soil sample results are available to the public [here](#) and also on the DTSC website at the following link: www.dtsc.ca.gov/HazardousWaste/Projects/exide.cfm

Copies of the soil sample results are also available at the Salazar Park Office (3864 Whittier Blvd., Los Angeles, CA, 90023), Monday through Friday from 10:00 a.m. to 5:00 p.m.

QUESTIONS?

For Soil Sampling Results: Marina Perez, DTSC Public Participation Specialist, (844) 225-3887
For Health Concerns: Dr. Cyrus Rangan, County Department of Public Health, (213) 738-3220
